

➤ **RNA also supports National Thalassemia Welfare Society on a number of projects –**

NTWS (a voluntary, social, welfare organization committed for the cause of Thalassemia patients). There is 'no cure' for Thalassemia except a regular supply of safe blood every 10-15 days.

- a) Help and support Thalassemia patients by creating awareness of the disease, requirement of blood for the needy patients and organizing blood donation camps at various sites.

- b) Creating medical facilities for the low income group

NTWS has been allotted land for the purposes of setting up a dispensary for the low income group. RNA is helping NTWS set up the laboratory and arranging for the equipments.

- c) Supporting education of under privileged children around Palam Vihar area.

- d) RNA is helping NTWS set up a library that would include text books from Grade 5-12 and other books to improve English and Maths to help children increase their employability
